### PROFESSIONAL SUMMARY

Software Engineer focused on building full-stack web applications with React.js, Next.js, Node.js, Express.js, TypeScript, PostgreSQL, MongoDB, and MySQL. Experienced in responsive UI development, REST APIs, authentication, database integration, testing, Git workflows, Docker basics, and deployment-ready project structure.

### TECHNICAL SKILLS

**Frontend:** HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap

**Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Socket.io

**Databases:** PostgreSQL, MongoDB, MySQL, Sequelize, Redis

**Testing / QA:** Manual Testing, Test Cases, API Testing, Jest, Bug Reporting

**Tools:** Git, GitHub, Docker, Postman, VS Code, CI/CD Basics

### PROJECTS

#### Employee Management System

Full Stack

*Next.js, TypeScript, Node.js, Express.js, PostgreSQL, Sequelize, JWT, Jest*

- Built a role-based employee management platform for workforce operations, attendance tracking, and departments.
- Added real-time dashboards, responsive light/dark themes, JWT authentication, testing, and deployment workflow basics.

#### Talkroom

Real-Time Chat

*Next.js, TypeScript, Node.js, Express.js, Socket.io, Redis*

- Developed a Socket.io-powered multi-room chat platform with public rooms, private messaging, and active users.
- Used Redis TTL for temporary username sessions, room counts, active users, and 12-hour expiry behavior.

#### QueryBridge

AI / NL to SQL

*Next.js, OpenAI API, Node.js, Database Integration*

- Built a schema-aware natural language to SQL platform that lets users query databases without writing SQL.
- Generated safe queries, blocked destructive operations like DELETE/UPDATE/DROP, and added history with result visualization.

#### Expense Tracker & Group Settlement App

Python / Django

*Python, Django, SQLite/PostgreSQL, HTML, CSS, Bootstrap*

- Built a personal and group expense tracker for income, expenses, category budgets, analytics, and shared costs.
- Implemented people directory, group expense splits, monthly trend visualization, and smart settlement calculations.

### EXPERIENCE

#### Software Engineer Intern

Saxon Digital Technologies | Karachi, Pakistan

*Internship | Onsite*

- Working on real-world software projects with a focus on scalable, maintainable, and user-friendly applications.
- Contributing to frontend and backend tasks including UI implementation, API integration, debugging, and feature improvements.
- Collaborating with the engineering team to improve code quality and deliver production-ready solutions.

#### Mobile App Developer Intern

MyCabify | Karachi, Pakistan

*Internship | Onsite*

- Worked on mobile app features for a taxi dispatching platform with focus on usability, responsiveness, and smooth UX.
- Implemented and improved app screens, booking-related flows, and driver-side interface components.
- Collaborated on bug fixes, UI enhancements, and functionality improvements to support real dispatch operations.

### EDUCATION

#### Bachelor of Science in Computer Science

2021 - 2025

*Sir Syed University, Karachi*
